Overview of SNAP proposals in the House Agriculture Committee's farm bill

What's At Stake?

“House Speaker Paul Ryan, who has long sought to shrink the social safety net, lauded the farm bill advanced last week by the House Agriculture Committee, H.R. 2, calling it ‘the precise thing we need to do to get people from welfare to work.’ Ryan said Thursday he sees the farm bill as part of ‘the final installment’ of the House Republican agenda.”

Politico | April 23, 2018

The House Agriculture Committee's 2018 Farm Bill breaks the long history of bipartisan commitment to ensure struggling families across the country have enough to eat.

- ✓ SNAP works – it keeps more than 8 million people out of poverty.
- ✓ SNAP's impact on children can last a lifetime.
- ✓ SNAP is a first-responder.

The House
Agriculture
Committee's
2018 farm
bill is:

1. Harmful
2. Unworkable
3. Untested
4. Wasteful

Harmful

The bill cuts food assistance to nearly every type of SNAP participant, including:

- children and their parents
- people with disabilities
- older workers
- people who are working or in between jobs

It rolls back decades of bipartisan effort to make SNAP more accessible, especially to workers.

Unworkable

The bill uses much of the money it gets from cutting SNAP to create a massive new bureaucracy that will likely fail to help people find jobs but is guaranteed to take food assistance from struggling households.

CONAWAY FARM BILL WOULD PROVIDE JUST \$30 PER PERSON PER MONTH FOR EMPLOYMENT ASSISTANCE – FAR LESS THAN WHAT’S NEEDED

Service	Average Per-Person Cost	Sufficient Farm Bill Funding to Cover?
RESOURCE ROOM VISIT	\$16	✓
STRUCTURED ASSESSMENT	\$13	✓
JOB CLUB (PER SESSION)	\$38	✗
WORKSHOP	\$54	✗
COUNSELOR MEETING	\$143	✗
SKILLS TRAINING	\$3,490	✗

Untested

Rather than waiting for evidence from innovative state pilot programs that are testing what works to help SNAP participants get jobs and succeed, this partisan Farm Bill pushes forward with an **untested** proposal that is likely to fail.

Similarly, the bill would mandate child support cooperation – a provision states have opted not to adopt because of its costs and unproven benefits relative to risks.

Wasteful

The bill would waste billions of taxpayer dollars on:

- employment services for those who don't need them because they are simply between jobs and will find work again soon on their own;
- the types of programs that are known to be ineffective at improving employment and earning outcomes; and
- a bureaucratic system to keep track of it all.

Would Undermine Progress on Improving Access

National SNAP Participation Rates Have Risen

Bottom Line

The House Agriculture Committee's 2018 Farm Bill should not break the long history of bipartisan commitment to ensure struggling families across the country have enough to eat.

Strengthening SNAP, not cutting it, is the right way forward.

Spring 2018 is Critical

Farm Bill is due for reauthorization by Sep. 30 (or extension).

House Bill	Senate Bill
The House could vote on Agriculture Committee bill (H.R. 2) this spring.	The content and timing for the Senate Agriculture Committee bill is being shaped now. Timing could be this spring.
The bill needs the majority of the House to pass.	Committee leaders say they want a bill that can get 60 (or 70) votes in the Senate
End game? The Conference committee will work out differences between the House and Senate bills. The final bill would need approval in both the House and Senate.
